ONISHI KENTARO**(54) **POLICY IMPROVEMENT SYSTEM**

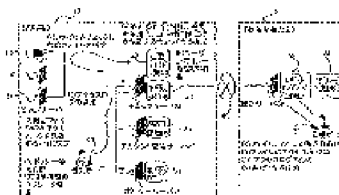

(57) Abstract:

PROBLEM TO BE SOLVED: To provide a policy improvement system which uses an access log to monitor illegal operation, allows a user to input a violation cause upon occurrence of policy violation for assisting in policy improvement, and checks creation dates of a folder and a file and an access right so as to analyze the status of use of the access log, thus enabling to improve the policy.

SOLUTION: The policy improvement system 1 defines a file including a predetermined keyword in contents of the file and meta information as a secret file, inspects whether or not the keyword is included in the file reg-

ularly, acquires an access log of the file determined being the secret file based on the result of the inspection, defines a file stored in a predetermined folder being the secret file to identify the secret file, and checks files stored in the folder regularly.
